

# Shared Care Record

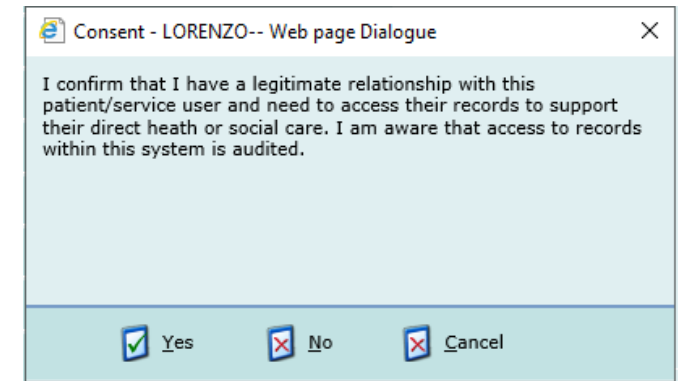

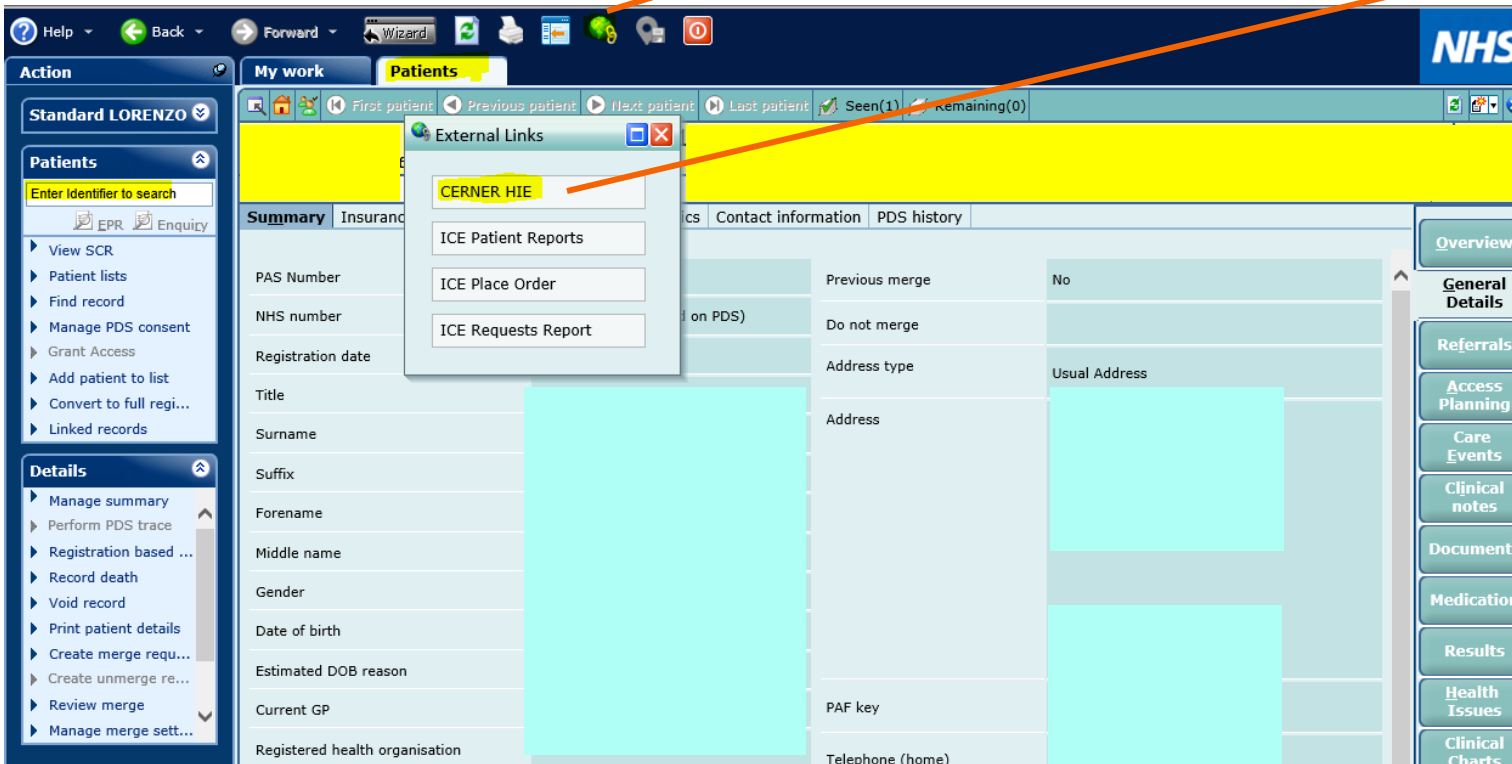

Opening the HWE Shared Care Record:  
Cerner Health Information Exchange (HIE)  
in **Lorenzo**

1. With the patient record open,  
select this globe icon at the top of  
the screen.

2. Select '**CERNER HIE**' from the  
list of External Links.

3. In the box that opens, select 'yes' if you can  
confirm that you are accessing information to  
support the delivery of direct care.

NB: You do not need to ask the patient for  
individual consent to view the Shared Care  
Record if you are directly involved in their care.

# Shared Care Record

Opening the HWE Shared Care Record:  
Cerner Health Information Exchange (HIE)  
in **Nervecentre**

1. Open the patient's clinical page in Nervecentre as usual.

The screenshot shows the patient's clinical page with the following sections:

- Observations:** A table with columns for '12 Oct 2021 08:32 Previous Episode', '12 Oct 2021 08:51 Previous Episode', and '12 Oct 2021 09:22 Previous Episode'. Rows include EWS, Respiratory Rate, Respiratory Chimes, CO Saturation, Heart Rate, SpO2, Capnium Level, Temperature, Pain, Respiration Rate, O2 Sat, Inspired O2, and ACP/CP.
- All Tasks:** A table with columns for 'Obs Due', 'Obs Overdue', and 'Created'. Rows show 'Not Assigned' tasks.
- Staff:** A section for staff assignments.
- Visit History:** A table showing ED visits in the last 12 months.
- External Applications:** A list containing 'Concentric' and 'Cerner HIE'. The 'Cerner HIE' entry is highlighted with a yellow box and an orange arrow.

2. Select '**CERNER HIE**' from the list of External Applications.

The screenshot shows the patient's clinical page with the following sections:

- Observations:** A table with columns for '12 Oct 2021 08:32 Previous Episode', '12 Oct 2021 08:51 Previous Episode', and '12 Oct 2021 09:22 Previous Episode'. Rows include EWS, Respiratory Rate, Respiratory Chimes, CO Saturation, Heart Rate, SpO2, Capnium Level, Temperature, Pain, Respiration Rate, O2 Sat, Inspired O2, and ACP/CP.
- All Tasks:** A table with columns for 'Obs Due', 'Obs Overdue', and 'Created'. Rows show 'Not Assigned' tasks.
- Staff:** A section for staff assignments.
- Visit History:** A table showing ED visits in the last 12 months.
- External Applications:** A list containing 'Concentric' and 'Cerner HIE'. The 'Cerner HIE' entry is highlighted with a yellow box.

3. You will now see the patient's Shared Care Record in the HIE. NB: You do not need to ask the patient for individual consent to view the Shared Care Record if you are directly involved in their care.
